

Working to end the use
of animals in research,
testing, and education
since 1883.

Dear Patent Commissioner,
10-043366
Thank you so much for
accepting all of AAVS's
proposed objections for the
rabbit patent (Patent No.
6,924,413). 10/043,366

However, as a nurse
and paralegal, I strongly
believe animal patents to
be unethical, and just
plain bad science.

Therefore, I urge you
to stop the issuing of all
other animal patents, as
well.

As you hold great
power, I ask that you
please change your policy
and never issue another
animal patent in the future.

Thank you,
Susan Powers
